PROFESSIONAL SUMMARY

Results-driven MEP BIM Coordinator with 6+ years of experience in BIM modeling and coordination for mechanical, electrical, and plumbing systems. Proficient in Autodesk Revit, AutoCAD, and Navisworks, with strong expertise in clash detection, 3D/4D modeling, and shop drawings. Proven experience delivering multidisciplinary projects across Europe, the Middle East, and India while ensuring compliance with BIM standards and client requirements, including implementation of BIM Execution Plans aligned with ISO 19650. Currently exploring automation workflows using Dynamo to improve efficiency and streamline repetitive BIM tasks.

CORE SKILLS

- BIM Management & Coordination (MEP systems, clash detection, multidisciplinary integration)
- Autodesk Revit MEP, AutoCAD, Navisworks Manage, BIM 360
- HVAC, plumbing, drainage, and firefighting system design & modelling
- BIM Execution Plan (BEP) development & implementation
- Shop drawings, as-built documentation & detailed fabrication drawings
- Quantity take-offs and material estimation
- 3D/4D/5D BIM modeling & scheduling
- Family creation & content library management
- Compliance with international codes
- Proficient in HAP, McQuay Duct Sizer, MS Office Suite

PROFESSIONAL EXPERIENCE

BIM Coordinator / Draughtsperson

Mekanika Ltd – Birkirkara, Malta | Oct 2023 – Present

- Led BIM coordination and MEP model integration for building services projects, ensuring coordinated, clash-free, and constructible designs
- Managed and guided a BIM team by assigning tasks, monitoring progress, and ensuring timely delivery of project milestones
- Developed detailed design and shop drawings for Building Services (Mech & Elec) using Autodesk Revit and AutoCAD
- Performed clash detection and resolved design conflicts through effective multidisciplinary coordination
- Supported tender preparation through accurate quantity take-offs and value engineering inputs
- Assisted on-site teams by providing execution drawings and resolving technical and installation issues
- Reduced MEP clashes significantly, contributing to faster approvals and smoother construction workflows
- Ensured all deliverables complied with BIM standards and project requirements aligned with ISO 19650

MEP BIM Coordinator

Prompt Engineering Consulting Services – India | Oct 2022 – Sep 2023

- Led and coordinated a BIM team, providing technical guidance, task allocation, and progress monitoring to ensure timely project delivery
- Supported team members by resolving modeling issues, improving workflows, and maintaining high-quality BIM deliverables
- Developed and managed MEP BIM models using Autodesk Revit, ensuring accurate multidisciplinary coordination
- Performed clash detection, coordination, and issue resolution using Navisworks to deliver clash-free and constructible model
- Participated in BIM coordination meetings to review models, resolve issues, and align project progress
- Contributed to a collaborative team environment by supporting knowledge sharing and continuous improvement within the BIM team

Draughtsperson

SET Qatar – Doha, Qatar | Apr 2022 – Aug 2022

- Produced 2D/3D/4D fabrication drawings for piping spools, isometrics, and support systems.
- Coordinated detailed service routing, resolving spatial conflicts with structural and architectural elements.
- Generated comprehensive layout drawings to guide on-site construction teams.

MEP BIM Modeler

ANEL MEP – Doha, Qatar | Sep 2021 – Apr 2022

- Conducted clash detection across architectural, structural, and MEP models.
- Prepared shop drawings and builders' work layouts for district cooling, gas, stormwater, and utility networks.
- Managed quantity take-offs and ensured model updates were aligned with client feedback.

MEP BIM Modeler

Gulf Tech MEP Design Solution – India | May 2019 – Jun 2021

- Modeled HVAC, plumbing, and firefighting systems using Revit MEP and AutoCAD.
- Created detailed shop drawings and Revit content libraries adhering to BIM standards.
- Coordinated model updates and revisions in collaboration with engineering and design teams.

EDUCATION

Diploma in Mechanical Engineering

Government Polytechnic College Chelakkara – Kerala, India

Apr 2016 – Apr 2019

TECHNICAL SKILLS

- Autodesk Revit MEP
- Navisworks Manage
- AutoCAD
- BIM 360 / ACC
- Revit Dynamo Automation
- HAP, McQuay Duct Sizer
